<b>Office Action Summary</b>	Application No. 10/644,862	Applicant(s) PHILLIPS ET AL.	
	Examiner Sanjay Cattungal	Art Unit 3768	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 11 December 2006.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 12/11/06 have been fully considered but they are not persuasive. Applicant argues that the Phillips reference does not teach automatically selecting a setting for a contrast agent imaging parameter as a function of and in response to setting the transmit level. Examiner would like to point out Fig. 5 element 78, 86, and 94 where in Phillips teaches setting parameters for contrast agent medical imaging comprising: setting a transmit level (element 78) and automatically applying a detection technique (element 86 and 94) based on the function of the transmit level.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by U. S. Patent No. 6,899,681 to Phillips et al. ("Phillips")

3. The applied reference has common inventors with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the

Art Unit: 3768

reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

4. Regarding **Claims 1 and 2**, Phillips teaches a method for setting a transmit level and automatically selecting an imaging parameter. (Abstract; and Fig.5 element 78, 86, and 94)

5. Regarding **Claims 3-5**, Phillips teaches setting the transmit level automatically by a processor in response to a measurement. (Claim 1)

6. Regarding **Claim 19**, Phillips teaches a system for contrast agent imaging, and altering a transmit level and transmit sequence in response to a user control. (Fig.3 elements 36 and 50; Abstract; and Fig.5 element 78 and 94)

#### ***Allowable Subject Matter***

7. **Claims 24-31** allowed.

**Claims 6-11, 13-18, and 20-23**, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3768

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
